

## EKOVISION 2MP 4G SOLAR CAMERA

ET-6001

- 2MP resolution for HD image quality.
- Support motion detection functionality.
- Support remote monitoring on mobile phones and PC to view live video anytime, anywhere.
- Solar panel powered, 4G connectivity, 100% wireless.
- Built-in PIR motion sensor to trigger recording and alert immediately.
- Achieve active defense with humanoid detection: triggers alarms and lights upon intrusion, with real-time notifications.
- Support Micro SD card storage, ensuring safe storage of video data.
- Support video playback functionality; simply insert a SIM card and start using it without any configuration.
- Employ both white light and infrared light; adjustable B/W mode and full-color mode via app.
- Wide viewing angles: up to 350° vertical and 150° horizontal, with 6 preset positions.
- IP66 waterproof, 80000mA rechargeable battery, and anti-surge protection.
- Ultra-low power consumption for extended standby time.
- Three mounting options: ceiling, wall, and pole

## HELIOCAM 4MP 4G SOLAR CAMERA

ET-6002

- 4MP resolution for HD image quality.
- Advanced motion detection functionality.
- Remote monitoring via mobile and PC for real-time viewing anywhere, anytime.
- Solar-powered, 4G connectivity, and 100% wireless operation.
- Integrated PIR motion sensor for instant recording and alerts.
- Active defense with humanoid detection: alarms and lights activate upon intrusion, with real-time notifications.
